EDUCATION

Illinois Institute of Technology | *Chicago, IL* **Expected Graduation: Dec 2027**
Bachelor of Science in Computer Science

Relevant coursework: Software Engineering, Innovation with Generative AI, Human-Computer Interaction, Database Organization, Algorithms, Data Structures, Systems Programming, Operating Systems, Discrete Structures, Object-Oriented Programming, Computer Architecture, Document Design

WORK EXPERIENCE

Exelon Summer Institute | Assistant Program Manager, *Chicago, IL* **Jul 2025 - Aug 2025**
- Coordinated **3** trainings for **28** staff, reaching **92%** attendance, and developed an interview template used to hire **7** leads.
- Managed an **$89K** budget after funding cuts, holding **$41K** in staff pay under its **$42K** line while keeping all **28** roles.
- Surveyed **20 students** to plan **11 outings**, 6 of them free, keeping trips, supplies, and food **within the $8.5K budget**.
- **Tools**: Microsoft Suite, Discord

Exelon Summer Institute | Computer Science & Design Lead, *Chicago, IL* **Jul 2026 - Aug 2026**
- Developed a **4-week** Python, AI, and design curriculum for **21** students, achieving **95%** concept mastery.
- Led **2** TAs through coding, design principles, and Figma/Framer wireframing basics, so **every student** presented a portfolio.
- **Tech Stack**: Figma, Framer, NotebookLM, Microsoft Suite, Discord

Exelon Summer Institute | Computer Science Teaching Assistant, *Chicago, IL* **Jul 2024 - Aug 2024**
- Instructed **15+** Python and circuit fundamentals lectures to **30+** students through hands-on coding projects.
- Provided individualized software and hardware debugging, guiding students to complete coding and circuit projects.
- **Tech Stack**: Python, Arduino, Raspberry Pi, micro:bit, Tinkercad, Breadboarding, Software & Hardware Debugging

PROJECTS

Real Estate Management Database Application | Project Lead, *Illinois Institute of Technology* **Oct 2025 - Dec 2025**
- Designed a **10-table PostgreSQL schema** and full-CRUD Python/Tkinter app for non-technical users.
- Led a **3**-phase project to on-schedule delivery, shipping **2 bonus features beyond scope**.
- Authored setup and demo guides enabling any reviewer to install and run the app independently.
- **Tech Stack**: Python, PostgreSQL, SQL, Tkinter, Microsoft Visio

Ulta Beauty Formula Decoder | Project Lead, *Illinois Institute of Technology* **Sept 2025 - Dec 2025**
- Originated **2** Generative AI integration concepts for Ulta's guest experience, leading a **6-person** team to deliver the Decoder.
- Interviewed Ulta's Head of Corp. Development and analyzed **3** competitors, uncovering a **43M+** loyalty-member data edge.
- Co-built the Lovable prototype and AI ethics policy; **ranked #1 of 6** teams by class vote to present at IIT Innovation Day.
- **Tech Stack**: Lovable, React, TypeScript, Tailwind CSS, Vite, Microsoft Suite

JPMorgan Chase Savvy Student Finance Dashboard | Project Lead, *Illinois Institute of Technology* **Sept 2023 - Dec 2023**
- Led a **5-person** team via **Agile/Scrum** sprints to tackle student budgeting struggles, delivering every milestone on schedule.
- Translated student budgeting pain points into **6 feature modules** and an **MVC design** spanning **5 core dashboard screens**.
- Developed hi-fi Moqups screens with alerts **flagging the top 3 over-budget categories**; led the final demo to strong feedback.
- **Tech Stack**: Moqups, MVC Architecture, Python & MongoDB (planned), Agile/Scrum, Google Workspace

LEADERSHIP EXPERIENCE

Society of Hispanic Professional Engineers | SHPEtina Director (Latinas in STEM) **May 2026 - Present**
- Launched social media **(120+ followers)**, opened a semester-based exec role to freshmen; piloting member shadowing roles.
- Built a **$2.6K** budget proposing **11** events for 2026-27, nearly **doubling** the **6** events funded in Spring 2026.

Society of Hispanic Professional Engineers | SHPEtina Professional Development Chair **Sept 2024 - May 2026**
- Co-developed SHPEtinas' first PD events, running **3+** per semester for **160+** STEM and architecture students.
- Built partnerships with **3+** companies, including **Fortune 500 firms**, to host career and professional growth workshops.

ADDITIONAL SKILLS

Design Software: Adobe Illustrator, Adobe InDesign, Adobe Photoshop, Canva, Onshape
Programming Languages: Java, JavaScript, HTML, CSS, C
Technical: 3D Printing (Prusa), 3D Carving (Inventables X-Carve), Lasering (Epilog Laser Mini), Electrical Wiring, Arduino IDE
Languages: Spanish (Fluent; Seal of Biliteracy Certificate)
Soft Skills: Stakeholder Management, Budget Management, Cross-Functional Collaboration, Translating Technical Concepts
